

The Memory of Snow

Three eras. Three young women. Three Guardians, separated by centuries. Aemelia: the Christian daughter of a Roman Commandant. Meggie: accused of witchcraft in the seventeenth century. Liv: a twenty-first century teenager, intent on finding information for a project. When horrors from the past threaten her, Liv discovers she is a Guardian of the mystical Coventinas Well. She must work with the spirits who linger there, and use their combined power to banish evil from the sacred spring. Set amongst the wild landscape of Northumberland, the Guardians must confront both the tragic past and the potential future in order to help each other survive.
