

Messages: The Worlds Most Documented Extraterrestrial Contact Story

We are not alone. And Stan Romanek can prove it. Romanek's gripping tale—augmented by video footage, photographs, and physical evidence—is the world's most documented extraterrestrial contact case. In print for the first time, Romanek relives his personal experiences, from his first sighting of a UFO to terrifying alien abductions. Romanek tells how he captured an extraterrestrial on film—the famous alien in the window video footage featured on Larry King Live. Messages includes photos, witness statements, lab reports, and other evidence supporting the validity of Romanek's fascinating story. But what's most shocking are the strange messages these unearthly visitors communicate to Romanek—authentic equations relating to space travel and planetary diagrams pinpointing what could be an auspicious date for the human race.
