

Modern Kazakhstan: Image and Realities (ICEUR Insight Studies)

Against the backdrop of its mineral wealth, Kazakhstan has been touted a Central Asian tiger state. In contrast to most other Central Asian countries, it was able to evade civil war and large-scale bloodshed and to assume a leadership position which won international recognition and respect. At the same time, the country could not evade the global financial crisis and its human rights record is far from being immaculate. This volume analyses the economic, political and social dynamic of modern Kazakhstan as seen by insiders and Western experts. Their opinions converge on the assumption that there are hard times ahead but that Kazakhstan has the potential to weather the storm.
