

Eyes in the Water (The Parting Breath Series Book 2)

Beached corpses reek upon lapping shores. The once powerful landswhile still alive are silent, as if asleep. Temperatures dip, and the world becomes steadily colder. The black fever spreads mysteriously, claiming lives in every corner of the land. There is great need in Massada. Brenol, grown now to full manhood, returns to the land to discover it is faltering. Fate nips at his heels, and he must race to beat a poison uncovered far too late. Sorely tried in his oath of protection, Brenol realizes he must choose honor over his own pursuit of love if Massada is to be saved.
