

The Last Dictator

It is a new dawn for the C-in-C, whose ascension to power is the result of the assassination of the reformist military head of state, General Mutallah Mohammed, who once promised to transfer power to a democratic government and failed. As a handful of military leaders meet in a private guest house, it soon becomes evident there are cracks in the military foundation and that a palace coup is boiling just beneath the surface. The leaders know they must choose who will be the next President of the Federal Republic of Nigeria. But the question remains-who? As soon as General Obasanjo becomes the new president, the nation is plunged into chaos. As a revolution brings masses to the streets who destroy and paralyze all government institutions, Obass realizes he must terminate the ruthlessness of the mafia by appointing the no-nonsense, second-in-command military ruler, Brigadier Taju Agbon, to power. But all of Obass efforts are in vain as more intolerants emerge, the upper class is attacked, and corrupt politicians are robbed of their wealth and properties. In this action-packed tale full of surprising twists and turns, the reign of the last dictator precariously hangs in the balance as he attempts to rule over a nation in jeopardy.
