

A Last Message to Mankind: Wanted: Noah

Where there is a beginning there is always an end. I am the Alpha and the Omega, the Beginning and the End... says the Lord (Bible, Revelation 21:6). for Allah is the Beginning and the End (Quran, Surah 53.25). If there is an end, is there an escape as well? Take a glimpse of how the mysteries of our reality can be unraveled for our own escape of the ending by merely arranging together the earliest beliefs, our traditional faiths, the allegorical myths and legends, the contemporary scientific knowledge and the mutual views of the modern generation. Can God handle the 21st century? Yet, can we handle God for the 21st century? Beginning: Does God exist or not? Or: Is God overrated or underrated? Middle: How will God react if mankind will eliminate this crazy little thing called sin through science, and in so doing, disapprove the need for God to drown and burn men of the past and of the near future? Ending: Are the Armageddon and the transformation the only remaining unfulfilled prophecies? If yes, what is the controversial 666 all about then? Escape: Does the Judgment Day merely connote a Decision Day? Journey: Does the wheel-of-life [creation and destruction, beginning and end, birth and death, etc.] have something to do with the universe-energy management or entertainment that we ourselves devised and will soon wake up from?
