

OECD Economic Surveys: South Africa 2013

OECD's 2013 Economic Survey of South Africa examines recent economic developments, policies and prospects. Special chapters cover improving education quality and green growth. Table of Contents: Basic Statistics of South Africa, Executive Summary, Assessment and Recommendations. Overcoming entrenched problems will require stepped-up policy efforts. Growth has been sluggish since the crisis, and is expected to pick up only gradually. The government's strategic plans are broadly sound, but implementation will be challenging. Improving basic education is critical for achieving the government's development objectives. Greener growth is needed for sustainability. Bibliography. Annex 1. Progress on structural reform. Chapter 1. Improving education quality in South Africa. South Africa has reached high educational attainment but quality of education remains dismal. Improving education quality. Bibliography. Annex 1.A1. Educational attainment and labour market outcomes. Annex 1.A2. Education quality and labour market outcomes. Annex 1.A3. The determinants of pupils' test scores at grade 9. Chapter 2. Economic growth in South Africa: Getting to the right shade of green. South Africa has become increasingly active as regards policies to deliver green growth. Meeting the challenge of climate change. Following through on water policy reforms. Bibliography.
