

## Senior Dating Guide: Senior Dating Advice and Tips

This is a senior dating guide for both sexes, who are divorced or widowed and would like to date other seniors who are in the same boat and looking for dates too. It begins with an anecdote about Jude and Rose: their unfortunate separation by death after thirty-five years of marriage, Jude's failed attempt at socializing after mourning Rose for two years, and his daughters' objection to his dating again at above 50 years of age. Several chapters on online dating, how to find a soul mate online, how to handle family objections, pitfalls to avoid while using online dating sites, case studies, senior dating advice and tips complete this senior dating guide. For seniors' reading ease, this book was printed with big font size and 1.5 lines spacing.
