

## Religion: A Discovery in Comics

A humorous yet substantive introduction to the world's religions and their concepts. Explaining the five major religions and modern spirituality in clear, colorful chapters, this illustrated primer is a great way to introduce a complex topic. In her easily accessible style, Margreet de Heer explores religious history and practices in an unbiased way and with a dash of humor, and makes it approachable for those with little knowledge of the subject. It offers a fresh look from different perspectives on the phenomenon of religion; the backgrounds and history of Judaism, Christianity, Islam, Hinduism, and Buddhism; and makes the point that religion is something that should unite us, not drive us apart.
