

The Affirmation Station: Daily Affirmations and Journal

Since Tania was a young girl she had a dream of making an impact on people. She understands the potential of believing in yourself and wants others to know they too have the power to choose. Tania is a mother, which has inspired her passion to bring the power of positive thinking into a child's life from the beginning-teaching adults and children alike to understand the importance of being kind to one another and to live a life of gratitude, love, and compassion. Empowering children to have a positive mindset and believe in themselves. The Affirmation Station will contribute to people's lives and help guide them as they learn to affirm as a daily practice. All the images are hand painted with watercolor paints and henna design. Tania was present for each painting as she and the artist brought her vision to life. The Affirmation Station is meant to empower children but will surely have an impact on everyone who reads it. The book also contains a journal giving children a place to self express their own affirmations and practice an attitude of gratitude. Somewhere they can always come back to, making this a book to cherish forever. Reading The Affirmation Station to my infant daughter reminded me that the greatest gift we can give our children is to demonstrate for them self-love, so that in return, they will learn to love every part of their perfect little selves. If we believe that we become what we think about, then by sharing this beautiful book with your little one, you will be ensuring they put their thoughts toward kindness, gratitude, compassion, and love. I highly recommend you read The Affirmation Station to your baby or child starting now! -Serena J. Dyer, mother and author of Dont Die With Your Music Still In You In this special book, Tania Joy Antonio reminds our children that they are full of essence and spirit. A wonderful way to stay connected to the divinity that is present in us all. -Dr.
