

Where the voice is not heard

The book is not the lore of a renowned climber. Plenty of books are written about famous climbers and the climbs. The climber in this book never desired to conquer a mountain. It is a journey from one failure to another, with the zeal for new pursuit with same enthusiasm. The book is for the common men, who yearn to escape the warped view of success. Perhaps, this book may help an average individual to introspect and appreciate smaller successes that makes him/her stand apart from a rat race. It is to motivate individuals set personal challenges or seek alternative growth path, when they hit a mental block. Above all, it is for the climbers who respect a mountain, with the awareness that it cannot be conquered. For mountaineers, who attempt difficult peaks with least resource; with knowledge that the journey is more important than the climb. It is for the adventurers to understand their prime responsibility, i.e. to return home, safe and sound. A safe retreat has priority over success or the Shame of failure. It is a tribute to the survivors i.e. families of numerous deceased climbers that bear the aftermath of the tragedy. Pratik represents the free spirit within us. -Parag Pendharkar
