

Twenty-first century citizens live in a hyper-connected world where deep personal fulfillment is ever easier to imagine, but difficult to achieve. Many feel like something is missing in their lives. They don't know what they're working for. They feel like their efforts aren't making a difference. There's a voice inside their heads saying they were meant to be something more. Following that voice took Bobbi DePorter from deep frustration to deep fulfillment – and from flat broke to an international success. She found her inner vision and followed it to quantum success. Along the way, DePorter identified 8 key catalysts that will enable you to discover your inner vision, and develop the commitment to carry it into the world. The 8 key catalysts will help you move beyond achievement and simple monetary gain to create a radiant energy that dynamically focuses your life. It will help you integrate your vision into your work, your relationships, and your day-to-day life, and find the meaning in everything you do. With Quantum Success, you will adapt faster, learn better, and never fear failure again. The tools, strategies, and stories in this book will speed your life in your own unique direction to create the energy shift and enhanced results you desire. Quantum Success is the antidote for fast and fragmented, twenty-first century living. And your guide Bobbi DePorter is the real deal, having expanded her vision to encompass her family, the creation of world renowned SuperCamp® in 1981, and the global learning and life skills business it has grown into -- Quantum Learning Network (QLN.)
