

Who is man? What is man? Why do we exist? Do we exist at all? What is existence? Is there really a God? And if so, what is he like? Can we claim to know anything certain about his existence and his attributes? Is he really a he? Should we seek the purpose of our lives in God? In religion? Through ideology? Can our existence have any purpose at all? How can we possibly obtain fulfillment and completeness in the midst of such an uncertain, chaotic, dubious, earthly life? In the midst of warfare, violence, oppression, greed, selfishness, and widespread ignorance? Through the volumes of my book Messages from Eden, I seek to initiate a dialog, to start a discussion, and to invite people to think together about these and other similar unanswered questions of mankind. In the first two books, I provide an autobiographical introduction, since I believe that without knowing the writer from an intimately personal place, no reader will ever truly understand or appreciate that writer's words. These first two volumes represent the first three decades of my life, and are the descriptive narratives of many poignant events that I recall from my past. The final two volumes merge into an abstract analysis of philosophical dilemmas like evolution and creation, birth and death, morality and sin, altruism and selfishness, society and the individual, money and happiness, religion and reason, man and God, existence and life. These last two volumes "happen" less, and contemplate more. The story-telling and narrative memoir ends there, but in its place the book then offers a numbered series of reflective, meditative, introspective articles of a philosophical-religious treatise. Although the first two volumes do significantly differ from the last two volumes in style and topic, I maintain that only the four volumes together constitute one complete book, and therefore they should not be separated from each other, or read as individual works. Although my book does not purport to reveal any surprising secret, self-confidently answer any unanswered question, or wisely teach anything to anyone, I still humbly trust that it will help its reader find a healthier, happier, and more fulfilled existence.
