

## Religion and Psychotherapy: A Powerful Combination

Mans well-being is in constant need of adjustment to the confusing and ceaseless changes of life. In this neurosis-ridden world, mans basic problem is to see reality correctly and to respond to it appropriately. Psychotherapy and religion can aid in overcoming the obstacles to understanding of self and of objective reality as well. The religious view of life is entirely compatible with the findings of psychology. That which is psychologically sound links up with that which is ultimately true.
