

Cosmic Consciousness A Study in the Evolution of the Human Mind (Annotated Notes on Richard Maurice Bucke (1837-1902) and his Top 10 Quotes

Cosmic Consciousness A Study in the Evolution of the Human Mind by Richard Maurice Bucke. This book is an attempted scientific study of illuminated individuals. Bucke provides three dozen very consistent examples of cosmic consciousness. Some of these are the usual suspects, and others are contemporary case-histories which Bucke collected. Bucke proposed that these enlightened figures are evolutionary jumps, the predecessor of a more advanced species. Each chapter has the TOC linkage for easy navigation.
