

## Rod of Jesse - On The Jesus of The Gospels and Doubt of His Existence

The book offers the reader: Comparisons of the Four Gospels to myths in the Hellenistic environment. Illustrations of prophecy as satisfied by chiming of ancient texts. The Story of Jesus found in John compared to the earlier (Synoptic) Gospels. Defense of the original & old-fashioned understanding of the Sign of Jonah. An extended Protestant Midrash on the Resurrection of Lazarus while introducing the conception of the Phallic god in refutation of John Allegro's Sacred Mushroom. Exposition of Mark's melodramatic Tale of the Dance of Salome (Baptists beheading) establishing legend as a vehicle of historical fact. Through careful examination of Passion & Resurrection scenes shows how history is conveyed while also revealing how easily Gospel accounts pass into legend. & Overall: An intellectual & independent assessment of the Gospels, taken in their original religious sense, for a distinct & persuasive evidence of a historical Jesus.
