

Power Plays for Brides: For Today's Brides. For Tomorrow's Wife.

There are so many great resources on the market to assist brides in their wedding planning process. However, Power Plays for Brides is dedicated to wives in training and is setting the course for a more productive wedding planning process and a less stressful lifestyle with your soon to be husband. This dynamic book, by Shimona Mayo, helps brides plan and design their dream wedding without cracking under the normal pressures. Power Plays for Brides, only a seven day read, offers twenty-seven proactive action steps and countless tips that will guide today's bride seamlessly from one phase to the next with real wedding experiences, thought provoking worksheets and proven marriage tips. It challenges brides to proactively achieve an improved lifestyle of managing, collaborating and delegating wedding tasks, which can be incorporated into marriage. Shimona offers invaluable and practical advice in this book. For example: The most important thing is for you to employ a system that works best for you. By doing this, you can communicate your needs more effectively, access what you need right away, and position yourself as a solid lead for your event. She also offers brides financial planning advice and practical strategies to keep grooms involved, establish a healthy internal foundation, hire an event support team, get organized, and manage communication that will last well after the honeymoon is over. Today's (bride-to-be) needs a resource that will effectively assist in managing emotions for a stress-less wedding and marriage. Power Plays for Brides, a lifestyle for today's bride and tomorrow's wife, is the perfect answer!
