

Sexually Shy: The Inhibited Womans Guide To Good Sex

We all know the saying, better than sex. Some people say that chocolate is better than sex. Others say that bungee jumping is better than sex. Still, others claim that drugs are better than sex. Supposedly, there are a lot of things out there that are better than sex. However, I never use this phrase because, to me, there is nothing better than good sex. And in my opinion, people who use this phrase probably have never had good sex and most of the time it probably isn't even their fault. It's because they're sexually shy. Due to their upbringing or other factors in their lives, they become overly inhibited. This is what is keeping them from having the good sex that they deserve. That's what this book is about. It's about the stuff you need to know that no one bothered to tell you. It's about getting over your sexual shyness and freeing yourself to get to that better sex. Exploring subjects such as exhibitionism, repression, and oral sex, *Sexually Shy: The Inhibited Womans Guide To Good Sex* is a must-read for anyone seeking a more fulfilling, less inhibited sex life.
