

## Was Jesus Three Days And Three Nights In The Heart Of The Earth?

The crucifixion of Jesus Christ is traditionally observed on Good Friday. However, his resurrection from the grave is recorded to have happened early on the first day of the week. Jesus prophesied that he would be in the grave three days and three nights and then be resurrected. Being crucified on Friday and rising on Sunday does not allow for his prophecy to be true. Was Christ wrong about his prediction or is the tradition incorrect? Was Jesus crucified on Friday or some other day of the week? Is there Bible proof for such to be true? Find out what happened and when by reading Was Jesus Three Days And Three Nights In The Heart Of The Earth?
