

Staring at Infinity

Staring at Infinity is a powerful yet simply told story. It traces Radheys journey through life, from a small boy growing up in a village, to an old man living in the big city. At the centre of this heartfelt account, is Radheys grandfather, whose wise words guide him and provides the foundation for the man he ultimately becomes. SAI will make you smile, vigorously nod in agreement, strike a chord and moisten your eyes as you connect with Radhey and the small but joyful moments of his childhood. It is a story that you will bond with, one which will resonate in your mind and you will long to share it with all those you love.
