

Survivor: An Extraordinary Journey

This is a story of a normal boy, from a well to do family who goes for a fun trip to Malaysia where his life changes forever. Eventually, he ends up on the streets of India where the journey of his survival and his adventures begin. He experiences the magic, the trials of survival, the turbulence of adventures, the passion of love and forgiveness, the serenity of hope and faith and eventually realizes the secret of handling any adverse situation. On the way he realizes, how the universe works in its own mystical ways and how our thoughts have the power to create events to change our lives for better or for worse. What if you had to live in a world where you had no family, home or even an identity and you had to survive by yourself? Even though life hits him hard again and again, he gets up, asking for one more round until the hardships are knocked out and he finally emerges as a winner.
