

A Suspect for Success: Setback for a season, setup for a reason

In this book A Suspect For Success, we realize that we do not always go through situations because something is wrong with us, but because something is right with us. Sometimes, challenges are not always a sign of negative decisions made in the past. Challenges can be positive indicators of greatness ahead. They are signs that the enemy is scared of the prospects and potentials of our future and strives to abort our purpose. However, as suspects for success, we are predestined for greatness so no matter what we face; God knows how to set us up with what was meant to set us back. This book is a compilation of practical lessons and powerful principles for understanding, preparing and overcoming the trials we all face in life. We learn the right attitude we must have as we carry our dream through its trimesters. We understand the perils of greatness and finally we discover how and why we need to trust God till he makes our dreams dawn. The only time we dont face opposition is if we are not in the game of life. As long as we are alive, well have challenges, but they ultimately lead to the fulfilment of our Destiny.
