

The Adventures of Venus

A charming all-ages comic from Gilbert Hernandez. A rare foray into all-ages work, The Adventures of Venus was Gilbert Hernandez's contribution to the kids anthology Measles which he edited in 1999 and 2000. This super-affordable little hardcover collects all the previously uncollected Venus stories from Measles in which Venus's niece creates and collects comic books, walks through a scary forest, plays soccer, schemes to get the cute boy she likes, laments the snowless-ness of a California Christmas, catches measles, and travels to a distant planet (OK, the last one may be a dream). Plus a new story done just for this book! Black & white throughout
