

The Demons Lexicon (Demons Lexicon Trilogy)

Nick and his brother, Alan, have spent their lives on the run from magic. Their father was murdered, and their mother was driven mad by magicians and the demons who give them power. The magicians are hunting the Ryves family for a charm that Nicks mother stole -- a charm that keeps her alive -- and they want it badly enough to kill again. Danger draws even closer when a brother and sister come to the Ryves family for help. The boy wears a demons mark, a sign of death that almost nothing can erase...and when Alan also gets marked by a demon, Nick is desperate to save him. The only way to do that is to kill one of the magicians they have been hiding from for so long. Ensnared in a deadly game of cat and mouse, Nick starts to suspect that his brother is telling him lie after lie about their past. As the magicians Circle closes in on their family, Nick uncovers the secret that could destroy them all.
