

## An Endless Journey

Pregnancy and infant loss affects millions of families across the world. But, unlike cancer, it isn't talked about. It is taboo. After all, babies aren't supposed to die. Parents aren't supposed to bury their babies.

In *An Endless Journey* Michele takes you through her life for the past four years. Describing the impact losing her children has had on her. Having lost her first child in 2009 and her second in 2011, she puts you in the moment, feeling everything she felt both physically and mentally. A MUST read if you have experienced the loss of a pregnancy or infant. A MUST read if you have never experienced the loss of a pregnancy or infant so that you can be aware of how this affects families and how it needs to be discussed, not swept under the rug.
