

This book provides a foundation in trade finance in a direct clean style, enabling the reader to understand the increasingly complex world of trade and provide appropriate services. It presents transaction flow diagrams and procedures detailing the movement of payment and credit through various bank channels, and covers EFTS. Practical solutions to a wide variety of regularly recurring trade problems are detailed, along with precontract reviews from members of the banking community and an introduction to a new, integrated approach to the development of product descriptions required for marketing services.
