

The Great Motivation Swindle: How to supercharge your natural kick-ass motivation and hunt down that Great Life! (The Great Swindle Series Book 2)

Do you dream of doing something awesome, big or small towards a Great Life, anything indeed, but when you try to motivate yourself into actually getting off your burgeoning ass and taking some kick-ass action, nothing happens, zilch? Somehow, for some damn reason you cant identify, your motivation always fails to show up for the party? Goes AWOL? Theres a strong chance its not your true dream youre chasing, but some swindling parasitic desire foisted on you - in short, youve been swindled, youre a casualty of The great motivation swindle. Too many great people are failing to achieve the success and Great Life they could be living and it seems to be assumed that this is a natural state of affairs and there is little that can be done about it. So what do you do if you find it harder to get motivated than a shark at a salad bar? If youre feeling more demotivated than an albino in a heatwave? What happens is you turn to self-improvement. But the killer is that this industry is largely just putting out the same swindling message as society, more and more dressed up in psuedo science and psychological jargon. The mountains of motivational literature, images and quotes that are designed to get you fired up enough to get going and kick some ass, are in fact doing the oh so opposite: rather than motivating ordinary people to get out there and chase down some sweet dream, they are demotivating them or worse still, encouraging the swindleous practice of substituting some other bastards aims and desires for yours. So whats the alternative? The alternative is a Revolution. A Revolution for the Common Man. A Revolution where you buck the swindle and the whole concept of self-improvement, replace all the corrosive crap in your head with your own unique desire and motivation to pursue your own happiness and go grab whatever the hell you want, as you. The book also includes
