

The Secret History of Christianity

THE SECRET HISTORY OF CHRISTIANITY follows the relationship between Jesus and Mary Magdalene and the 2000 year old mystery as to how the Church of Rome suppressed the marriage of Jesus and the corruption of the church as portrayed in codes in the medieval paintings of Botticelli and Leonardo da Vinci. The book investigates and names the biological father of Jesus as recorded but hidden in the scriptures. The educational years of Jesus are investigated and his education as a faith healer under the teachings of the Essenes who were part of the Egyptian establishment. Symbolic legacies from the Pharaohs are today still to be seen in our churches. The marital status of Jesus to Mary Magdalene is covered in depth with the history of his descendants who fled the Holy Land after the crucifixion and lived in France. A chapter is devoted to an alleged visit of Jesus to England with Joseph of Aramathea. THE SECRET HISTORY OF CHRISTIANITY follows the trail for the descendants of Jesus and then moves to the crusaders and the origins of the Knight Templars and how they were manipulated by their political arm; the Prior of Sion who are still with us today. The narrative covers the French suppression of the Templars and the Cathar people in the south of France which then follows through into investigations into the Holy Grail. The links between the Templars and Scottish history and the hidden secrets of Rosslyn Chapel are outlined which embraces a detailed description of the Templars discovery of America that happened one hundred years before Columbus. The author spent a considerable time in the Lanquedoc researching the intriguing mystery of Rennes le Chateau and how the descendants of Mary Magdalene were integrated into the French nobility. Lateral thinking in a chapter on Alchemy puts forward a case that Sauniere, the priest at

Rennes le Chateau got his wealth from alchemy but the author presents a case that he may have been blackmailing the Church of Rome. The author presents a good thesis for the theory that there are hidden codes in the medieval paintings of Leonard de Vinci and Botticelli. THE SECRET HISTORY OF CHRISTIANITY finishes with theories as to what may have happened to the Templar treasure and ends with the Authors conclusions to The End Times. The Paperback edition (ISBN: 978-1845297633) is not illustrated. The Kindle edition at \$1.96p is fully illustrated.
