

The Mountains of Montenegro: A Walkers and Trekkers Guide (Cicerone Walking Guide)

This guidebook to Montenegro includes day-walks and multi-day treks throughout the Dinaric Alps, ranging from 1 hour to 5 days, with a selection of circular and linear routes, with variants and extensions. The 17 walks and trekking routes take in Montenegro's five national parks as well as other areas including Orjen, Komovi, Tara Canyon and the UNESCO-listed old town of Kotor. Walks are all graded, from easy outings to challenging treks involving exposure and scrambling. Many of the multi-day routes will require camping or staying in unstaffed mountain shelters. With a range of practical information on maps, language, travel to and around the country, and accommodation, this is a comprehensive and informative guide for walkers who wish to sample one of the finest walking destinations in Europe. These mountains are some of the wildest, most spectacular, and least visited in Europe. Nevertheless they are easily accessible, and many areas have well-marked trails. They present an opportunity to travel through outstandingly beautiful and remarkably unspoilt natural scenery, which sees few visitors.
