

## The Productive Person: A How-to Guide Book Filled with Productivity Hacks & Daily Schedules for Entrepreneurs, Students or Anyone Struggling with Work-Life Balance

Anyone privileged with the choice of how they spend their time is cursed with a common struggle...work-life balance. Whether you're a student, entrepreneur, or even stay at home parent, dividing your free time between productivity and personal time can be difficult. How do you maximize each hour of productivity so that you are only focused on the task at hand, leaving you free to do other more enjoyable things? And...how do you make sure your free time is truly free...free of guilt, free of stress, and free of feeling anxious for not being busy? Both of these things require practice and can be tough to implement and manage with your already overloaded schedule. In this practical, lighthearted and action-oriented book, James Roper and Chandler Bolt explain how you can be productive with your time without sacrificing your social life and the freedom you cherish. By drawing examples from their time as students, entrepreneurs and years of coaching student-entrepreneurs, they show the listener how to be more productive while also creating more time freedom.
