

## In the shadows darkly lit (Volume 1)

This fictionally autobiographical account is based on the life of Internationally Known Intuitive Life Coach Rod Robertson from the beginning of his life journey to adulthood. In this first book in the series the reader is given an intimate peek into the life events, people and guides that helped to shape his destiny. The reader is taken from death in the womb to a life less ordinary. The author invites us to follow along as he learns about life as an outcast and finds his way. The author reveals the good and the bad of his gift in a soulful revelation of his life. In the shadows darkly lit... we find many things. The warm summer rain surrounded us with a heavy mist as we stood in the alley like statues along some forgotten path. They stood there pale and gray in the shadows darkly lit drawn to my light. I stood there all alone in a crowd of long dead spirits. The weather didnt bother them and they gave no real regard to the fact that I was soaking wet. What did they care? They couldnt feel it. Death rids you of many common worries. They had become passengers on the ride that was my life and all they were worried about was the final destination. Each spirit was waiting anxiously for their stop; their point of no return. That is, after all, why they had gathered around me. Excerpt from IN THE SHADOWS DARKLY LIT By Rodney A Robertson
