

Relative to the Forest Reservation Which Is Called the Yosemite National Park, State of California (Classic Reprint)

Excerpt from Relative to the Forest Reservation Which Is Called the Yosemite National Park, State of California
The United States Reservation, Known as Yosemite National Park, Is Not a National Park at all, but Merely a Forest Reservation Made by Act of Congress and Committed to the Care of the Secretary of the Interior, With Instructions to Preserve From Despoliation the Curiosities and Natural Wonders Within It. Emphatically and clearly, the Act of Congress setting aside this reservation did not dedicate it as, or make it a national park, but with all necessary precision that Act established it as a forest reservation. Further than this, a later Act, changing its boundaries, expressly preserved that status as a forest reservation, in express terms left it subject to the provisions of the original Act as a forest reservation, and said nothing which by any reading of the English language can be construed as giving this reservation the legal status of a national park. The reservation thus established has been called The Yosemite National Park, but this designation of it by a park name does not, can not, give it other status before the law than that clearly affixed by the Acts of Congress making and remaking it a forest reservation.
