in Paranormal & Supernatural! FATE
magazine is fascinating. Steven King
The world is not what we think it is.
The individuals whose experiences you are
about to read know that only too well,
since nothing in their lives had prepared
them for their encounters with things that
are not supposed to happen but did! Events
like these remain hidden because those
they happen to are afraid to speak out of a
natural reluctance to have their sincerity or
sanity questioned. Societies define their
own realities and those who challenge them
do so at their own peril. The moral seems
to be that where these kinds of events are
concerned, ignorance is the best policy.
Ignorance, of course, will not stop people
from having strange, inexplicable
experiences. Mysterious stuff will continue
to fall out of the sky. People will continue
to have bizarre UFO encounters. Little
men, monsters, talking mongooses and
invisible presences wont stop their
determined trespassing into our reality.
While most of the world turns a deaf ear to
these dimensions of experience, FATE has
been listening. And a great number of
people have shared their stories with
FATE. You are about to read the strangest
of them, the reports that represent the
greatest challenge to science, reason and
understanding. What you will find here, in
The Worlds Strangest True Stories, is
nothing less than a full, unobstructed view
of these other realities, tantalizing glimpses
of things that dont belong here, of worlds
not our own...
