

Foundations of the Christian Faith (Master Reference Collection)

In one systematic volume James Boice provides a readable overview of Christian theology. Students and pastors will both benefit from this rich source that covers all the major doctrines of Christianity. With scholarly rigor and a pastors heart, Boice carefully opens the topics of the nature of God, the character of his natural and special revelation, the fall, and the person and the work of Christ. He then goes on to consider the work of the Holy Spirit in justification and sanctification. The book closes with careful discussion of ecclesiology and eschatology. In this revised edition of a formerly four-volume work, Boice maintains a remarkable practicality and thoroughness that will make this a standard reference and text for years to come.
