

## I Saw Him Standing There

Imagine if John Lennon was still alive. What music would he be creating? Would he still be doodling and drawing images he sees all around him? Sadly at the young age of forty, his life was cruelly snatched away from him and his music and creativity died with him - OR DID IT. Imagine from beyond the grave he was able to transmit his thoughts and music to an ordinary non musical untrained Liverpool man, in order that his music live on. An amazing thought. Almost too ridiculous to contemplate. Except that, incredibly its true. It happened to me and this is my story.
