

WTO Trade Policy Review: European Union (Trade Policy Reviews)

Monitoring the trade policies and practices of members is a fundamentally important activity of the World Trade Organization. All WTO members are reviewed at regular intervals, according to their share of world trade. Each Trade Policy Review consists of three parts: a report by the government under review, a report written independently by the WTO Secretariat, and the concluding remarks by the chair of the Trade Policy Review Body. A highlights section provides an overview of key trade facts.
