

Turning OFF Noise; Tuning IN to Healthy Sound

Individuals in today's culture rarely think about the need to make responsible choices concerning the sounds they listen to. Most people are usually unaware of the affect of sound, its benefits and its detriments. Silence, the absence of sound, is not in style these days and can even be difficult to find. Western culture conditions us to be comfortable with noise and crowds, not with silence and solitude. Turning OFF Noise: Tuning IN to Healthy Sound will offer you ideas for making responsible sound choices, including times of refreshment with God!
