

This book reads like the script for a science fiction movie, with a cast of malevolent and benevolent aliens, a league of human minions, a battle for the Earth, and an enslaved human populace. But sometimes truth is stranger than fiction. The Matrix is real; we are living in the Matrix. The Matrix movies came as close as possible to revealing the truth—we live in a carefully-constructed holographic reality that is based upon a single false premise. The entire artificial reality system of the Matrix is based upon a single kernel of false programming inserted into every one of us. More information is coming to light every day. The Golden Age of Gaia has been foretold by many ancient texts, and we are the ones who will create this heaven on Earth once again. But first, we must each consciously unplug from the Matrix. Are you ready to know the truth? Once you know the truth, you can never go back. Ufology crop circles, unexplained ancient mysteries, UFO extraterrestrials, ancient aliens explained, matrix fans, lightworkers indigos starseeds, illuminati conspiracies
