

# Macroeconomics

This brand new text by Manfred Gärtner, based on his successful A Primer in Macroeconomics, takes a distinctive real world approach to macroeconomics, uniquely blending theory with applications.

Key features: Applies a rigorous, comprehensive approach to macroeconomics that is not available elsewhere. Integrated case material with extensive coverage of issues affecting Europe and the rest of the world. Full range of pedagogical features used to maximum effect to aid learning, including chapter objectives and summaries, graphs, diagrams, cases, margin notes, key terms and concepts, recommended reading, exercises to test understanding and applied problems for hands-on experience of empirical data. Full supplementary package, including an Instructors Manual and an innovative Companion Website. Macroeconomics is aimed at intermediate courses in macroeconomics and in European economics.
