

What is Love: The Illustrated Book of Love

The poet turned to the sea to seek its help in defining love. Rearing its head from the water, a fish imparted him with a strange instruction: you should paint love. Over a turbulent night, the poet created the Book of Love - a unique piece tracing love's course through this world with paintings, musings and poems. In a plain, clear language, the answer to the question of What is Love? unfolds. Poignantly and sensitively, the poet describes how love is the main power that makes this world go around, connecting people and perpetuating the human race, while bestowing meaning and hope. The Book of Love disassembles love into concepts, briefly discussing each and leaving room for personal interpretation, in the belief that each man and woman should find their own way using the tools they have been given. For seekers of love and those sharing a romantic relationship, the book can offer inspiration, a smile and some comfort. They are to tread a path carved for them by the poet and come across some original references associated with the meanderings found in the world of love and relationships. Artist and poet Eran Shefi offers a new approach for observing our world: Poeticons poetic drawings marked by a minimalistic line. Alongside the poems, he produces an inspiring combination of media, of the kind that allows an in-depth observation of a variety of issues.
