Disillusioned after 25 years of the inadequacies of westernized medicine, Dr. Godfrey embarks on a journey into how to better help his patients. His 20 year journey takes the reader from the physical to the metaphysical and from homeopathy to bio-resonance medicine. He investigates the relevance of past-lives and near-death experiences and then looks into the miraculous where the impossible becomes possible. He looks for the very why of our physical lives. His investigations eventually took him to the feet of Sathya Sai Baba in India recognized by some millions as the greatest spiritual teacher of the 20th century.
