

There is a way: A book which shares much more than a life story

A true story about a British woman, who in 2010 was finally catapulted into her worst months of shame and self-destruction, after thirty years battling with mental health issues including depression, anxiety and a spending addiction incurring 50k debt. Losing almost everything, including her home, she practically forfeited her life too, but after a failed suicide attempt Sharon finally faced up to her fears. She transformed her life in a way that will inspire and encourage others to realise they can change their lives too, no matter how impossible it may seem. This is a heartfelt journey that will reach out to its readers, many of whom will most certainly relate to aspects of the story.

There Is a Way also lifts the lid on the toxic effects our society can have on peoples lives, and the huge pressure we put on ourselves as we tirelessly strive to live out the perfect lifestyles seen in magazines, adverts and media. It also helps to break down the stigma attached to mental illness and how our perceptions of others can be far from their reality. After much media curiosity about my past spending addiction, depression and attempted suicide, with countless interviews and features in national magazines including Psychologies and Womans Own, I decided it was time to tell the whole story. ~ Sharon Bull
