

Why Wait to Be Happy?

Why do so many people feel unhappy, anxious, unfulfilled, or unable to create sustainable loving relationships? In this short but content-rich, interactive book, Jake and Hannah Eagle, Reology practitioners and co-founders of reology.org, identify and explain three basic sources of unhappiness and guide you through a series of questions so that you will be able to uncover some of the causes of your own dissatisfaction or unhappiness. When you understand the causes of your emotional pain, you will have an advantage in finding your own solutions. Based on the teachings of Caltech psychology professor John Weir, PhD and his wife Joyce, more than 20 years ago, Reology is the current-day evolution of a revolutionary way to find the power within you to improve your life and discover new ways of finding happiness and fulfillment.
