

Wilderness Survival Tools: Bushcraft Strategies and Tools You Will Need to Know to Be Safe When Backpacking or Camping (Bushcraft Survival Guide)

Do you relish life in the great outdoors, do you love to walk and camp? There is something magical about spending time with nature but do you have the skills to handle it if something goes wrong? What about another emergency could you cope if you got separated from your group or if your car broke down in the middle of nowhere? What about if you came to your campsite and found that someone had stolen all your equipment or animals had ruined everything? Do you have the skills to keep yourself warm and safe and get yourself back to civilization? This book will teach you all this and more. Inside You Will Learn: The essential equipment no outdoorsman should be without; How to plan your trip and make the most of the information available to you; How to make sure that someone will call the emergency rescue if you do not return home; How to find clean, safe drinking water; How to keep yourself fed while in the great outdoors; How to choose the right shelter for your trip; How to build an emergency shelter; How to navigate yourself out of peril; What to do if you have lost or dont have a compass; Emergency first aid; And Much More This book is packed with hints and tips suitable for new enthusiasts and old hands alike and full of useful information for people who just want to be prepared should the worst happen to them.
