

Looking at Life with Eagle Vision: Are present beliefs holding you back?

Having been born in an era when there seemed to be a right way to do things and authority was not to be questioned, Eleanor noticed at an early age that she knew things that did not conform to what was being taught; so after years of trying to conform, she began her own search for her truth. Since more information is now available with the invention of TV and Internet, she has been using those mediums to learn more about where some beliefs originated.
